High Points:

Advanced Intelligent Cockpit

Features the latest Linux system (T507), a 4-core CPU (1.5GHz), 1 GB RAM, and 4 GB ROM, with an upgraded 11-inch HD digital instrument panel (1920 x 720) for seamless vehicle integration.

Steering Wheel Control

The BMW Z4 E89's instrument panel operates through intuitive steering wheel controls, allowing easy access to various functions without distracting the driver.

Customizable UI Styles

Offers four distinct driving theme styles (Digital, Classic, Aviation, Sport) with options for personal customization, enhancing the driving experience.

Comprehensive Vehicle Monitoring

Displays essential data such as speed, RPM, fuel consumption, and various intelligent metrics, along with timely alerts for vehicle status and original car information support.

More Specifications:

Intelligent Cockpit Integration	Upgraded 11-inch high-definition digital instrument panel for enhanced vehicle monitoring
Steering Wheel Control	Intuitive operation of functions using long and short presses on steering wheel controls
Customizable User Interface	Four driving theme styles (Digital, Classic, Aviation, Sport) with personalized settings for color and display content
Real-Time Speed and RPM Display	Provides accurate readings of current vehicle speed and engine RPM for better driving control
Fuel Consumption Monitoring	Displays real-time fuel consumption to encourage efficient driving habits
Multi-Functions Display	Shows various metrics including transmission temperature, oil temperature, and vehicle tilt, enhancing situational awareness
Warning and Alert System	Notifies drivers of vehicle mileage, remaining fuel, and system malfunctions for timely maintenance
Original Vehicle Information Support	Compatible with the original car's data, including adaptive cruise control and tire pressure
Plug and Play Installation	Easy installation with no remote matching required and a quick start time of under 2 seconds
