High Points:

Comprehensive Vehicle Monitoring:

Displays key information like average fuel consumption, TPMS, engine speed, and water/oil temperatures, ensuring you stay informed on your car's performance and health.

Smart Upgrade with Fast Response:

Upgrades your original mechanical instrument to a smart cockpit with a 12.3-inch HD display, powered by a dual-core T507 CPU, offering fast startup in under 2 seconds.

Intuitive Steering Wheel Control:

Allows easy operation through the steering wheel, letting you adjust settings like brightness, display modes, and vehicle data without distraction.

Wide Compatibility & Easy Installation:

Plug-and-play installation with no remote matching needed, and fully compatible with original car features such as ACC, lane-keeping, and engine error codes, for a seamless integration with your vehicle.

More specifications:

Vehicle Monitoring Features	Average fuel consumption display
	TPMS (Tire Pressure Monitoring System) display
	Fuel mileage warning
	Engine speed and speedometer display
