High Points:

Smart Cockpit Solution:

You can upgrade your original mechanical instrument to a smart cockpit, enhancing your driving experience with a 12.3-inch HD display and advanced features for a modern, intuitive interface.

Fast and Responsive Performance:

With a dual-core T507 CPU and Linux system, you enjoy quick startup times (under 2 seconds) and stable, long-term use, making your vehicle's instrument cluster more efficient and reliable.

Comprehensive Vehicle Information:

You'll have easy access to essential data, including fuel consumption, tire pressure, engine speed, oil temperature, and much more, all displayed clearly on the high-definition screen, so you can monitor your car's performance at a glance.

Customizable Driving Experience:

You can choose from multiple driving theme styles (Classical, Sport, Off-road), adjust settings like brightness and color, and even set your own preferences for the digital interface, ensuring a personalized driving dashboard.

More Specifications:

Key Driving Data and Vehicle Status	Displays average fuel consumption, TPMS, and fuel mileage warnings
