High Points

Advanced Intelligent Cockpit

Equipped with the latest Linux system (T507), this cockpit features a powerful 4-core CPU (1.5GHz), 1 GB RAM, and 4 GB ROM. It upgrades the instrumentation to a stunning 12.3-inch high-definition display (1920 x 720), ensuring seamless integration with the vehicle.

Intuitive Steering Wheel Control

Easily manage various functions using the steering wheel buttons. Drivers can adjust settings such as trip counters and display modes without taking their focus off the road.

Customizable User Interface

Choose from three driving themes—Classic, Sport, and Off-road—and personalize colors and content to enhance your driving experience.

Comprehensive Vehicle Monitoring

Stay informed with essential metrics like speed, RPM, and fuel consumption. The system provides alerts for vehicle status and is compatible with original vehicle information, featuring a straightforward plug-and-play installation.

More Specifications:

High-Definition Digital Display	Upgrades to a 12.3-inch screen with a resolution of 1920 x 720 for enhanced visibility
Steering Wheel Control	Allows intuitive operation of functions such as trip counters and display modes using steering wheel buttons
Customizable UI Themes	Provides three driving styles (Classic, Sport, Off-road) with options for color and content personalization
Speed and RPM Monitoring	Displays current vehicle speed and engine RPM for better performance management
Real-Time Fuel Consumption Tracking	Shows live fuel consumption data to encourage efficient driving habits
Multi-Function Data Display	Presents various intelligent metrics including transmission temperature, oil temperature, and vehicle tilt
Warning Notifications	Alerts drivers about vehicle mileage, remaining fuel, and system malfunctions for timely action
Original Vehicle Compatibility	Supports original vehicle data, including adaptive cruise control and lane-keeping features
Easy Plug-and-Play Installation	Quick installation process with a start-up time of under 2 seconds, requiring no additional setup
Multi-Language Support	Available in several languages to accommodate diverse users
