【For Chevrolet Camaro 2010-2015】 :12.3 inch LCD digital cluster gauge

Digital Speedometer for Camaro 2010 2011 2012 2013 2014 2015

Our Product Introduction

Traditional mechanical instrument replacement to high-definition LCD digital instrument display.

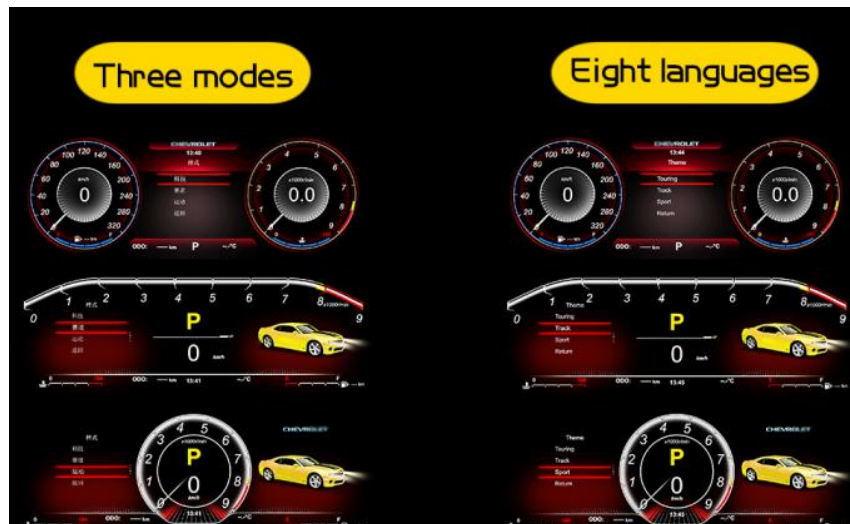

Specially customized for the 2010-2015 5th generation Camaro SS V6 V8. Upgrade your mechanical meter to digital display. One-to-one seamless design of the original car shape, personalized digital screen, enhance your driving pleasure.

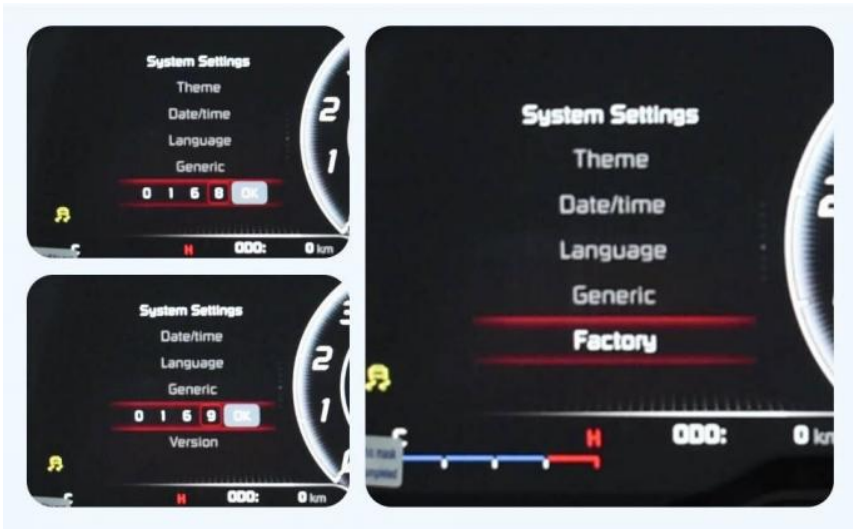

Equipped with linux operating system, it abandons complex navigation and audio and video functions, making the system simpler and more stable. Configure 1+4GB RAM/ROM. Fast and stable access to all instrument functions, with a 12.3-inch LCD digital display that makes dashboard functions easier and faster to read and operate.

Featuring a screen resolution of 1920*720, every detail on the display is vivid and sharp, ensuring optimal visibility in any lighting condition. The digital cluster operates within a voltage range of 9V-16V and consumes a low operating current of 0.8A-1.5A, ensuring minimal strain on your vehicle's electrical system.

The digital cluster gauge will retain all the functions of the original gauge. You can use camaro functions inside the gauge, such as fuel monitoring, engine diagnostics, or communication with the original entertainment system, which will be integrated into the new digital display gauge.

Upgrade your Camaro 2010-2015 with this camaro Digital Speedometer and embrace the future of driving technology. Experience precise speed readings, easy navigation, and seamless integration with all the original functions of your vehicle. Take control of your driving experience like never before.
