High Points:

Smart Cockpit Solution:

Transform your original mechanical instrument into a modern smart cockpit with a 12.3-inch HD display, providing an enhanced and intuitive driving experience.

Fast and Responsive Performance:

Equipped with a dual-core T507 CPU and Linux system, this instrument cluster offers quick startup times (under 2 seconds) and reliable long-term performance, enhancing efficiency.

Comprehensive Vehicle Information:

Easily access vital data such as fuel consumption, tire pressure, engine speed, and oil temperature, all clearly displayed on the HD screen for quick performance monitoring.

Customizable Driving Experience:

Select from various driving themes (Classical, Sport, Off-road), adjust brightness and color settings, and personalize the digital interface to create a dashboard tailored to your preferences.

More Specifications:

Driving Data Overview	Displays average fuel consumption, tire pressure monitoring system (TPMS), and fuel mileage warnings
	Shows digital engine speed, speedometer, and driving statistics
	Includes a built-in compass and monitors car body posture (front/back tilt angle)
	Tracks water temperature, oil pressure, battery voltage, and gearbox oil temperature
	Features time, date, and weekly display
Advanced Features and Personalization	Displays power transmission status for the 4WD system
	Provides reminders for open doors (including tailgate and hood)
	Offers multiple driving theme styles (Classical, Sport, Off-road)
	Includes an automatic headlamp function setting
	Fully compatible with original car systems (ACC adaptive cruise control, lane keeping, tire pressure, fuel consumption, engine errors, etc.)
Language Options	Supports multiple languages, including Simplified Chinese, English, Russian, Japanese, Arabic, Spanish, German, Traditional Chinese, and more
